Parap Hotel, Lot 2168 Parap
Road, Darwin NT

GPS:

-12.43373, 130.8427

Categories of Significance:

Unique Location
Physical Features
Habitat

Year Listed:

1989

This tangle of natives is an example of the mingling of trees through the strangling habit of the Banyan. This group has been protected from the hotel traffic by the placement of curbing. Chris C. Black, hotel manager through the 60's and 70's, has carved his name on the trunk, as have other drinkers.
