

21 Philip Street

Scientific Name:

Ficus virens & *Sterculia quadrifida*

Common Name:

Banyan & Peanut tree

Register Number:

168 & 169

Location of Tree:

21 Philip Street, Fannie Bay,
Darwin NT

GPS:

-12.42123, 130.83691

Categories of Significance:

Unique Location

Year Listed:

1992

These trees are part of the remnant rainforest vegetation which, before the urban expansion of Darwin, occurred over large areas in East Point, Nightcliff and Jingili.

The Banyan has unfortunately been removed. The Peanut Tree remains.
