

Alstonia actinophylla — Milkwood

Scientific Name:

Alstonia actinophylla

Common Name:

Milkwood

Register Number:

191

Location of Tree:

Northcliff foreshore (near bend in the road), Casuarina Drive, Nightcliff, Darwin NT

GPS:

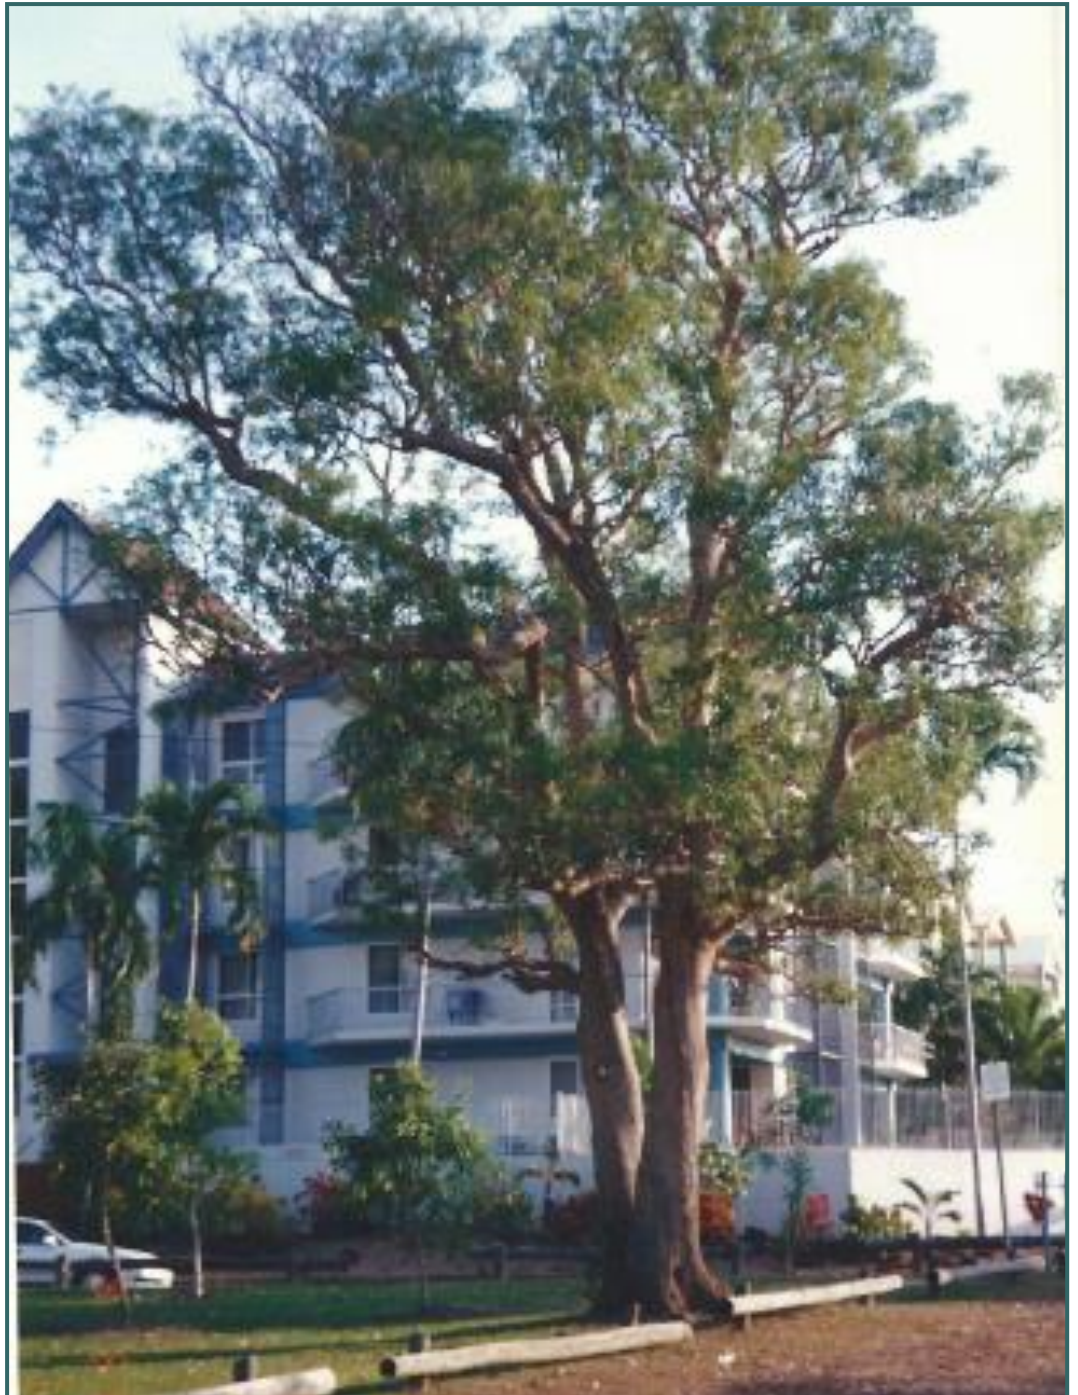

-12.37459, 130.85392

Categories of Significance:

Aesthetic
Historical
Unique Location

Year Listed:

2002

This tree was a prominent cyclone survivor when there was little else around. Its direct shooting of green following the cyclone was inspirational at the time.
