

Peltophrum pterocarpum — Yellow Flame Tree

Scientific Name:

Peltophrum pterocarpum

Common Name:

Yellow Flame Tree

Register Number:

91

Location of Tree:

33 Parap Road, Darwin NT

GPS:

-12.43092, 130.84303

Categories of Significance:

Aesthetic

Unique Location

Year Listed:

1988

Peltophorum pterocarpum is native to tropical southeast Asia and northern Australasia. The tree is widely grown in tropical regions as an ornamental tree, particularly in India, Nigeria, Pakistan, and Florida and Hawaii in the United States. The wood has a wide variety of uses, including cabinet-making and the foliage is used as a fodder crop.
