

Alstonia actinophylla — Milkwood

Scientific Name:

Alstonia actinophylla

Common Name:

Milkwood

Register Number:

98

Location of Tree:

6 Stokes Road, Darwin NT

GPS:

-12.43549, 130.84228

Categories of Significance:

Aesthetic

Size

Age

Habitat

Year Listed:

1989

This Milkwood stands on the fenceline of an old Darwin house surrounded by a WWII bombshell fence. The house will eventually be demolished, but there is no reason why the tree should not remain. Typically, there is a Banyan seedling growing in the fork.
