

Eucalyptus bigalerita — Northern Salmon Gum

Scientific Name:

Eucalyptus bigalerita

Common Name:

Northern Salmon Gum

Register Number:

31

Location of Tree:

Catholic Church, 11 Second Street, Katherine NT

GPS:

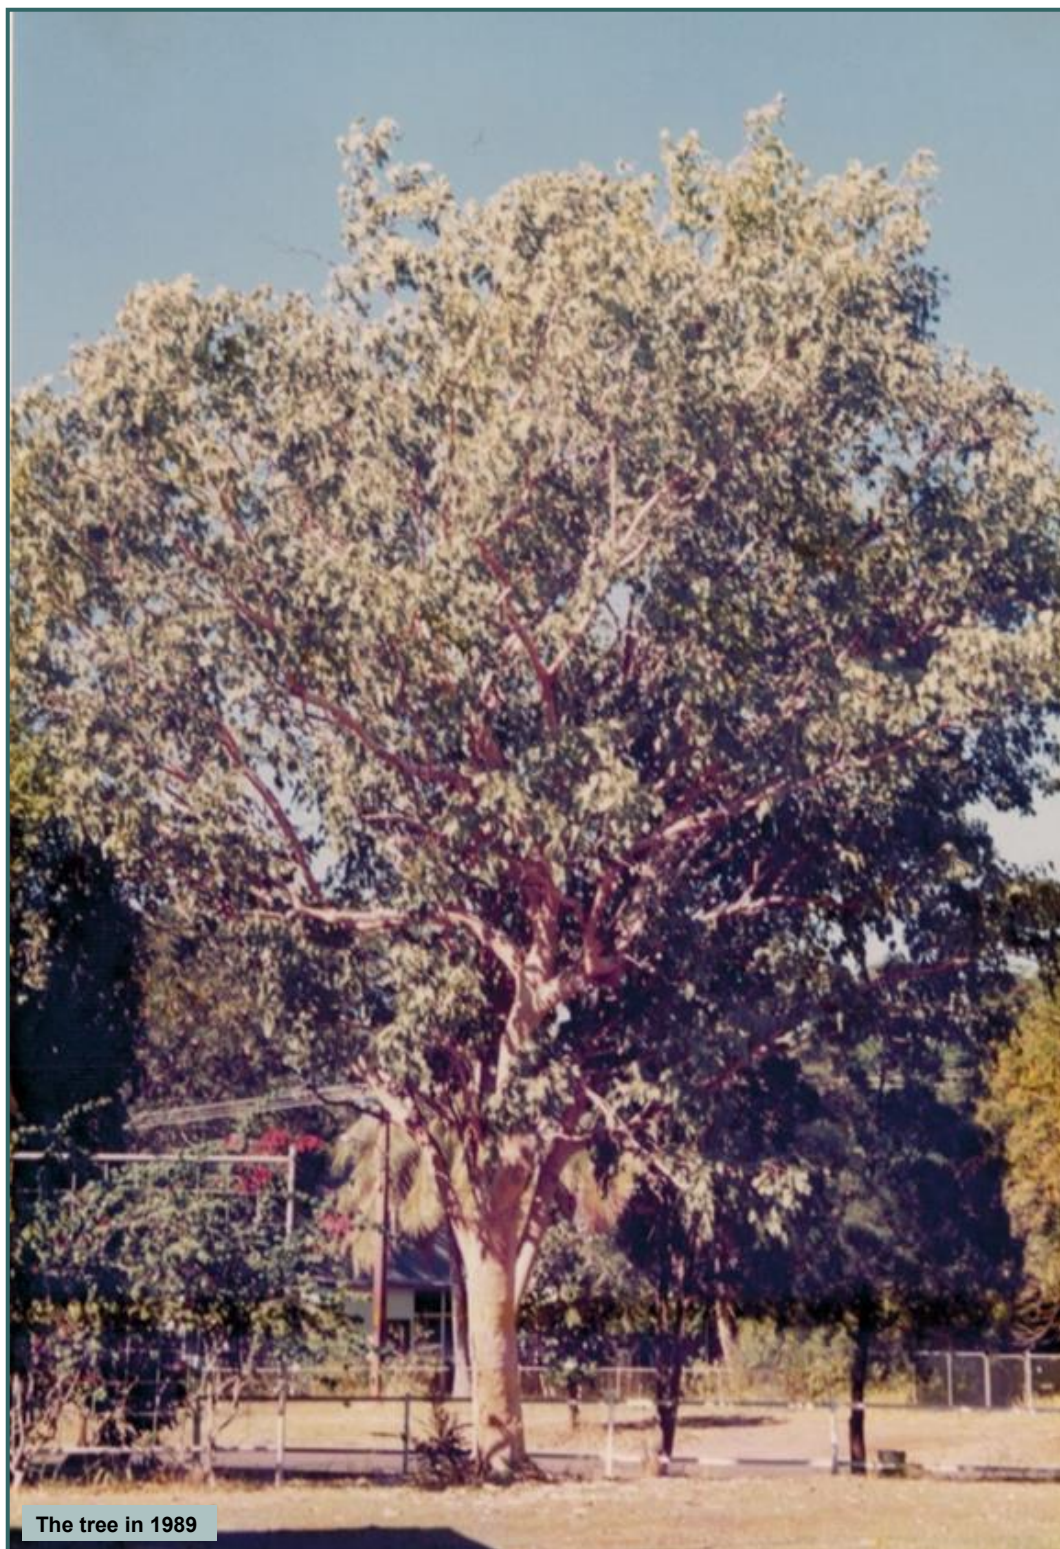

-14.46333, 132.26595

Categories of Significance:

Aesthetic

Unique Location

This gum is located at the Catholic Church Katherine and was accepted on the basis of its size and aesthetic qualities. It is most probably part of the remnant native vegetation of the Katherine area. As with many remnant trees their survival is commonly associated with proximity to lot boundary.

The tree in 1989
